PORTFOLIO OVERVIEW & DIVERSIFICATION CHARACTERISTICS

TRANSACTION TYPE

VINTAGE YEAR

SIZE

*[1]Investors should not expect to be able to sell shares. There are many restrictions to redeem, and investors cannot redeem shares upon demand or in the quantity desired. [2]Vintage year refers to the year of fund formation and/or its first takedown of capital. Based on NAV as of 10/31/2026. Excludes cash and liquid investments. Late primaries defined as funds with 30% or more capital drawn at or near date of first investment. Past performance is no guarantee of future results. Information is subject to change. *The Fund, in its sole discretion, may accept investments below the minimum. Investors subscribing through a given broker/dealer or registered investment adviser may have shares aggregated to meet these minimums, so long as denominations are not less than $50,000 and incremental contributions are not less than $25,000.*

MONTHLY UPDATE AND PORTFOLIO COMMENTARY – OCTOBER 2026

The Evergreen Fund's origination platform remained robust in October with three new transactions executed for approximately $21m in total deployment. All three investments were in the middle or lower middle market alongside sector specialists with deep domain operational capabilities. As the Fund continues to scale, building diversified, direct exposure to lower middle market businesses will remain the core focus and defining characteristic of the portfolio.

The Fund invested $10m alongside a repeat, high-conviction sponsor with whom Apogem has built a relationship spanning more than a decade across multiple successful transactions. The business operates in the specialty ingredient manufacturing sector, which has positive tailwinds around clean-label foods and proprietary process power; as a result, the company has a very attractive historical growth and margin profile. The sponsor's existing relationship with the management team was critical because it allowed the Firm to win the transaction at an attractive relative value vs. precedent transactions despite not submitting the highest bid. The investment exemplifies the Fund's strategy of partnering with a relationship-driven sponsor with deep end-market expertise on a lower middle market co-investment.

Apogem Evergreen also completed a $7.5m deal in a lower middle market, tech-enabled platform that delivers AI-driven anti-money laundering analytics to financial institutions and regulators. With a 2x liquidation preference and absence of debt, the GP sought to structure the deal to mitigate downside risk, while the company's mission-critical end market and exponential growth opportunities may present upside potential.

Lastly, the Fund executed a $3.9m investment directly in a dermatology platform with a strong base of non-discretionary, recurring revenue. The business is supported by solid organic growth, de novo expansion opportunities, and a strategic M&A pipeline.

Consistency in deployment and portfolio construction has resulted in consistent returns of 10.97%, 11.85%, and 11.37% over the one-, three-, and five-year periods, respectively. Since inception, the Fund has produced a 15.43% net annualized return.

The Fund's total expense ratio is 2.74%. ***Performance data quoted represents past performance and is no guarantee of future results. Total return figures include the reinvestment of dividends and capital gains. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than original cost. For the most recent month end performance, please call (888) 330-3350. Returns showing less than one year are cumulative. *ITD represents inception-to-date, 5/22/20. *As of 10/31/26. **Standard deviation is a measure of the amount of variation or dispersion of a set of values and annualized based on weekly performance from January 2021 to present; prior performance excluded as only available monthly. Max drawdown is a measure of an asset's largest price drop from peak to trough.***

The Fund commenced investment operations on December 31, 2020, after the conversion of a limited partnership Account, Bow River Capital Evergreen Private Equity Fund LP, which commenced operations on May 22, 2020, (the "Predecessor Account"), into shares of the Fund's Class I Shares. Information portrayed prior to December 31, 2020 is for the Predecessor Account. The Fund's objectives, policies, guidelines and restrictions are in all material respects equivalent to those of the Predecessor Account. The Predecessor Account was not registered under the Investment Company Act of 1940, as amended (the "1940 Act"), and therefore was not subject to certain restrictions imposed by the 1940 Act on registered investment companies and by the Internal Revenue Code of 1986 on regulated investment companies. If the Predecessor Account had been registered under the 1940 Act, the Predecessor Account's performance may have been adversely affected.

[3]The MSCI World Index is a stock market index made up of approximately 1,300 global stocks. It is used as a common benchmark for `world' or `global' stock funds. The index comprises a collection of stocks of all the developed markets in the world, as defined by MSCI and includes stocks from 23 countries but excludes stocks from emerging and frontier economies. The index is used herein for illustrative purposes only. Broad-based securities indices are unmanaged and are not subject to fees and expenses typically associated with managed accounts or investment funds. Index results assume the re-investment of all dividends and capital gains. The index is not a projection, prediction or guarantee of performance. Investments cannot be made directly into an index. The performance of the index shown represents unmanaged, passive buy-and-hold strategies, investment characteristics and risk/return profiles that differ materially from the Fund, and an investment in the Fund is not comparable to an investment in such index or in the securities that comprise the index.

[4]Correlation coefficient is a number between -1 and 1 that measures the strength and direction of a relationship between variables.1 is a perfect correlation when variables move in the same direction while -1 is a perfect negative correlation moving in the opposite direction. Zero indicates no relationship between variables.

RISK DISCLOSURES

An offer can only be made by the prospectus and only in jurisdictions in which such an offer would be lawful. The prospectus contains important information concerning risk factors and other material aspects of the Fund to carefully consider and must be read carefully before a decision to invest is made. An investor should consider the fund's investment objectives, risks, charges and expenses before investing. This and other important information can be found in the fund's prospectus. To obtain a prospectus please visit www.apogemevergreen.com. Read the prospectus carefully before investing. You should not expect to be able to sell your shares other than through the Fund's repurchase policy, regardless of how the Fund performs. The share redemption policy is subject to modification or termination at any time.

Any person subscribing for an investment must be able to bear the risks involved and must meet the suitability requirements of the Fund. Investors could lose all or a substantial amount of their investment. No assurance can be given that the Fund's investment objectives will be achieved**. The Fund is speculative and involves a substantial degree of risk.** The Fund is a closed-end, non-diversified management investment company that will make periodic repurchase offers for its securities and is highly illiquid. There is no secondary market for investors' interests, and none is expected to develop. There are certain restrictions on transferring interests. Fees and expenses will offset the Fund's trading profits. The Fund is subject to conflicts of interest. Other risks include those related to equity securities, high-yield/high risk bonds, listed private equity, listed infrastructure securities, foreign securities, derivative instruments, leverage, capital calls, investment manager risk, as well as those related to general economic and market conditions, all of which may present significant risks. Please see the prospectus for more information on these and other risks. Securities distributed by *NYLIFE Distributors LLC*, 30 Hudson Street, Jersey City, NJ 07302. *Member FINRA/SIPC*.

There is no assurance that you will be able to tender your Shares when or in the amount that you desire.

NOTE: On October 1, 2026, Bow River Advisers and its employees fully integrated with Apogem Capital, and the Bow River Capital Evergreen Fund became the Apogem Evergreen Fund. This change to the Fund's management was approved by the Fund's shareholders on August 31, 2026. There have been no other changes to the investment strategy, objectives, or terms of the Fund, and the team remains in place, now as employees of Apogem Capital. All references in materials to Bow River Advisers or Bow River Capital no longer apply and will change to Apogem Evergreen and Apogem Capital.
